

Visitor and Contractor Management for Schools and Universities

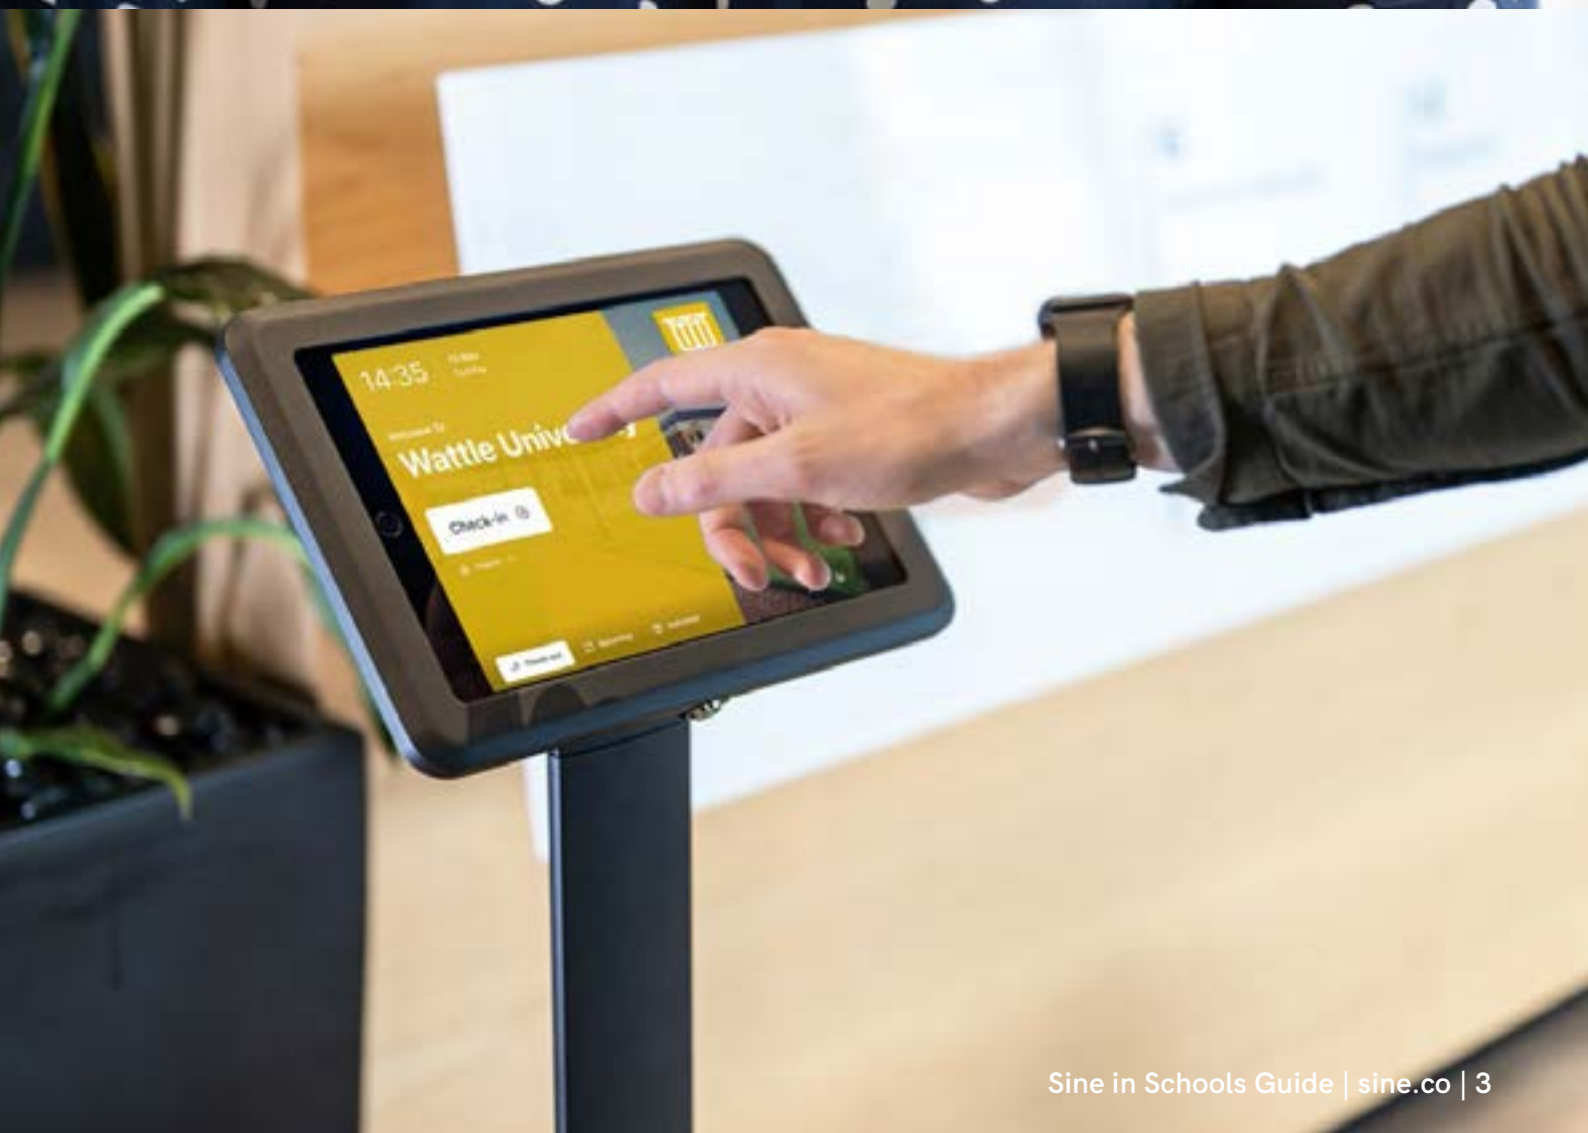

Streamline campus visits with Visitor and Contractor Management

TRUSTED BY EDUCATORS GLOBALLY

IPSWICH GRAMMAR SCHOOL

Upgrade to digital check-in with Core

Welcome to the connected campus

Paper logbooks are outdated. Sine Core can enhance efficiency and security for any educational institution:

- Streamlined web, mobile, and kiosk check-in/out options
- Quick entry for frequent visitors
- Set visitor categories (staff, volunteers, parents, etc.)*
- Customized content for each visitor type during check-in/out
- Auto-checkout via Geofence for app users

Enhanced communication

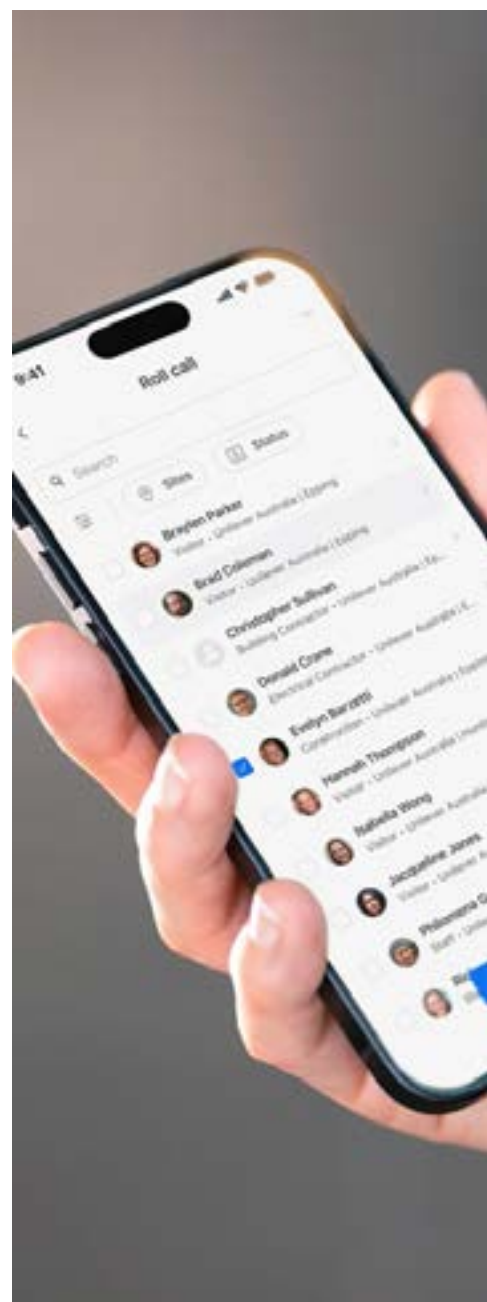

Sine Core's notification features ensure real-time updates:

- Get notified instantly if someone is here to see you
- Message visitors via SMS, notification, or email
- Courier alerts for deliveries
- Urgent notifications in emergencies

Simplified emergency procedures

Enhance your emergency protocols with Sine Core for live lists of visitors on site:

- Broadcast messages via notification, SMS or email
- Emergency alerts on kiosk displays
- Real-time attendance tracking on Sine Web Dashboard
- Roll call feature for accounting all on-site

*Those under 18 years of age cannot be checked in with Sine Core software

Vet those entering site for safety and security with Workflows and Companies

Robust oversight for robust compliance

Keep digital logs for audit and compliance requirements:

- Real-time tracking of visitors on Sine Core Dashboard
- Automated reporting, daily summaries via email
- Print visitor badges with identification details

Custom entry requirements by visitor type

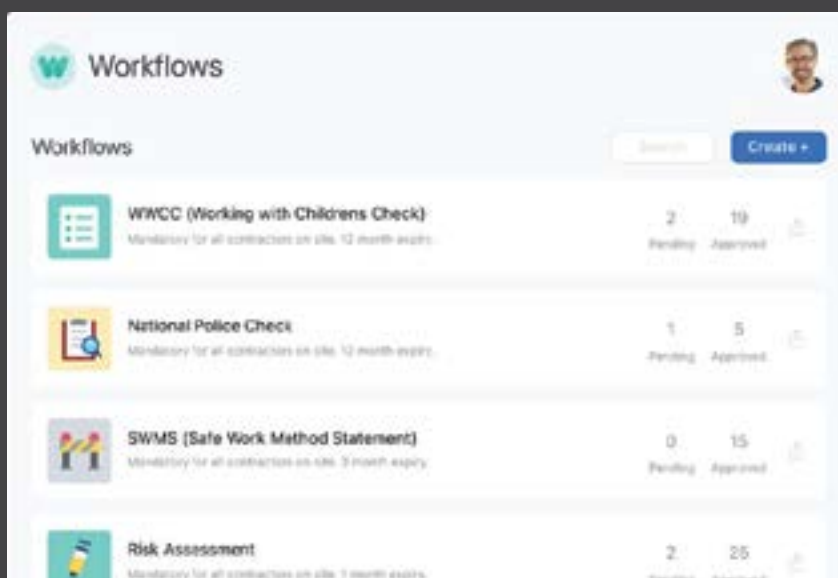

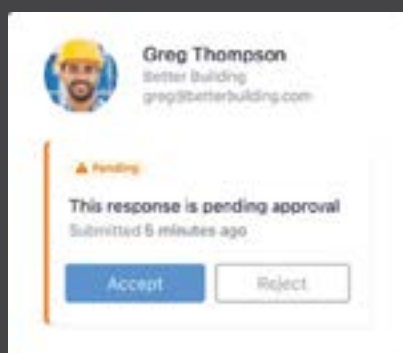

Require visitors on site to meet certain requirements.

- Collect Working with Children's Checks
- Integrate with denied party screening providers such as Descartes*
- Automatically block check-in for those deemed unable to enter site
- Use Workflows to qualify visitors to site prior to arrival

Automate documentation collection

Keep company compliance documents up-to-date.

- Centralized digital storage for key compliance documents
- Reduced human error and document loss
- Document expiration alerts
- Automatic or manual approval of submissions

*Requires third-party paid software and integrations

“With Sine [Core], there’s no need for reception to spend time informing staff that their guest has arrived.”

Customer Technology Manager, Dexus

“6 YEARS OF USE, EXCELLENT PRODUCT COUPLED WITH ALWAYS ON CUSTOMER SERVICE.”

One platform, endless possibilities

Integrations and features

From access control to external watchlists, Visitor and Contractor Management can connect your tools and automate processes to reduce manual data entry and minimize repetitive tasks.

Use Visitor and Contractor Management's out-of-the-box webhook to get started or leverage our native integrations.

Simple check-in

Allow guests to check in via the iPad or the Sine mobile apps at all your sites.

Site geofencing

Set up a virtual perimeter enabling guests to check in and out of your site swiftly.

Instant notifications

Be alerted when your visitor arrives and choose to accept or reject with messages.

Pre-screening

Collect critical information and screen visitors prior to check-in.

Simple check-in

Track people flows at multiple sites and run reports on the purpose of your guest's visit.

Pre-registration

Invite your guests to fast track their check-in on arrival for meetings, seminars and events.

Compliance

Have visitors confirm NDA's, fire evacuation diagrams, and health and safety processes.

Badge printing

Print badges for visitors to show photo ID, visitor type and host, and pre-print for invited visitors.

Feel supported

Around-the-clock support – no matter where you are.

Hardware to suit your needs

Visitor and Contractor Management hardware

First impressions matter. Our premium hardware offerings are high-quality and can be customized to include your brand colors and logos.
