Intelligent visitor & contractor software.

Replace your visitor book.

Check-in visitors, staff and contractors via our easy to use iPad App, SinePoint Pro. Add your company's logo, website look & feel and improve your front of house image.

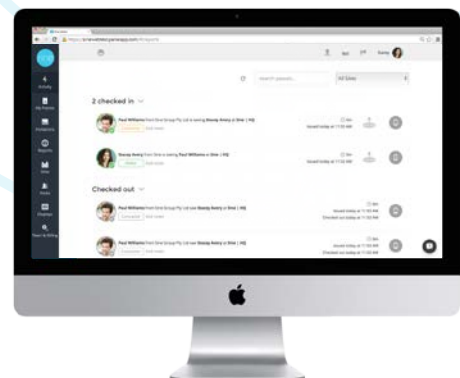

Get the full features of Sine with all plans and set up is super simple.

Live web dashboard.

Use our powerful and intuitive web dashboard to configure your iPad, location settings, add hosts, send messages and view live & past activity at your location. Run reports instantly and export all data seamlessly.

Set up multiple locations under one account. Sine is ideal for single or multi-tenant facilities.

Custom entry forms.

If you require that your visitors and contractors sign NDA's, view health and safety information or fill in induction forms to describe their purpose of visit, set up your entry process in minutes. Decrease risk and improve safety on site.

Pre-register visitors & contractors.

Calendar invites automatically integrate with Sine to let your front desk or security teams know who is attending in advance. A pre-registered guest can then be quickly checked-in by the front desk, via the iPad or mobile Apps.

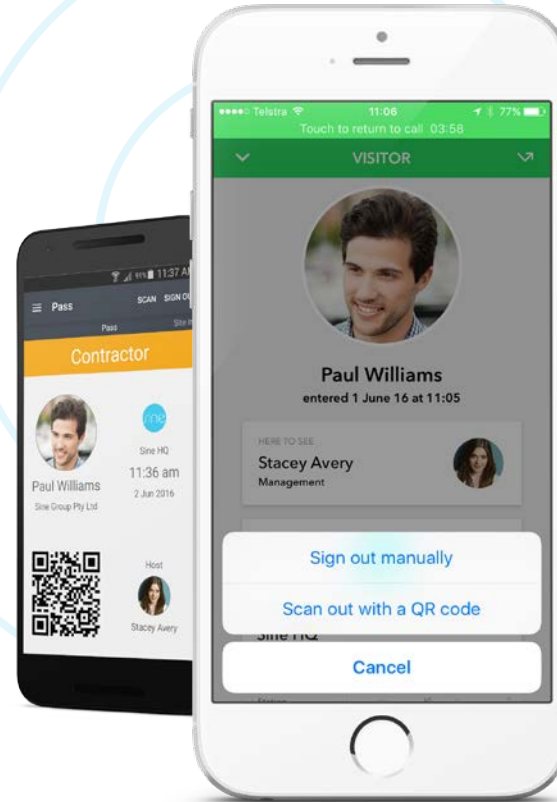

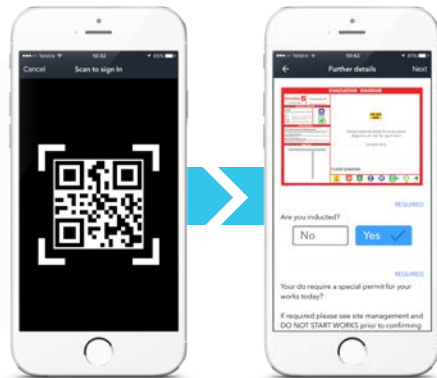

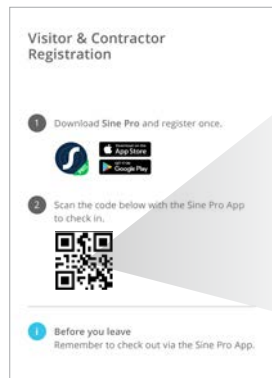

Intelligent visitor & contractor software.

Mobile check-in.

Check-in repeat visitors, contractors & staff using the free Sine Pro mobile App. Hosts receive notifications that their visitor's have arrived using the same Sine Pro mobile App. Available for iPhone and Android and it's completely free.

Scan or tap-in on arrival. Receive an automatic reminder to checkout when you depart.

Place wall posters with unique QR codes to allow for a more precise check-in and out process. Entry and exit forms display health and safety information and allow for easy incident reporting.

Print badges instantly.

Print visitor and contractor badges in an instant via your iPad. Colour and black & white options available.

Be a great host.

Hosts are automatically notified of visitor or contractor arrival via email, SMS or the Sine mobile App.

Communicate.

Instantly send alerts to all visitors, contractors, Hosts and your iPad devices in an emergency, alert or during an event.

Live evacuation lists.

Print or email live visitor evacuation lists in a drill or real emergency instantly to your fire warden or building manager.

Intelligent visitor & contractor software.
