Workflows

Remove the hassle of chasing qualifications and keep your workforce compliance up to date.
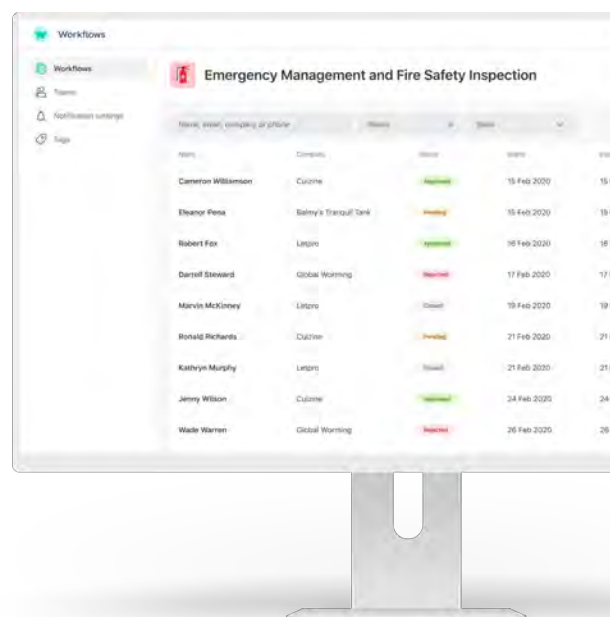

sine

Plug and play with the Sine Starter Pack

Take out the heavy lifting from your site processes with Sine Workflows

Improve your safety, security, and compliance with Sine's workplace visitor management software. Check in visitors, contractors, staff, and assets to your operations.
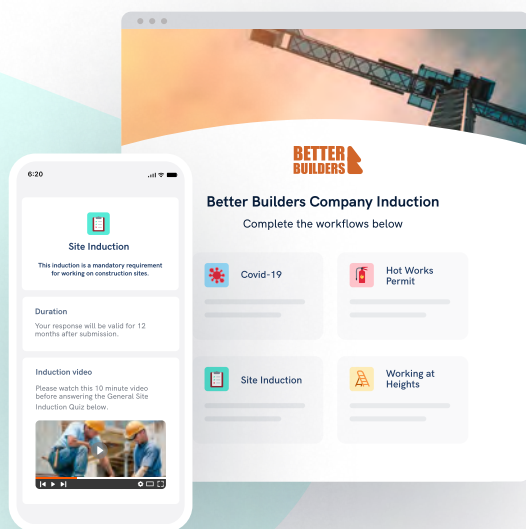

All features are included in all plans like facial recognition, auto-reporting, QR code scanning, customisation and much more.

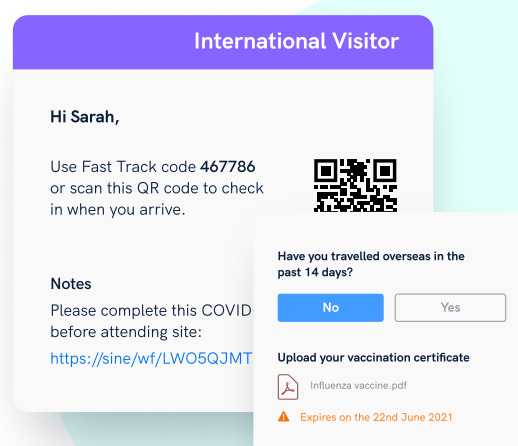

Automate company inductions

Let Sine handle the process of getting inductions completed before arriving at site.
Easily set up site-specific company inductions and have them completed from the Sine Pro mobile app or web dashboard. Include videos, images, or document upload in the workflow.
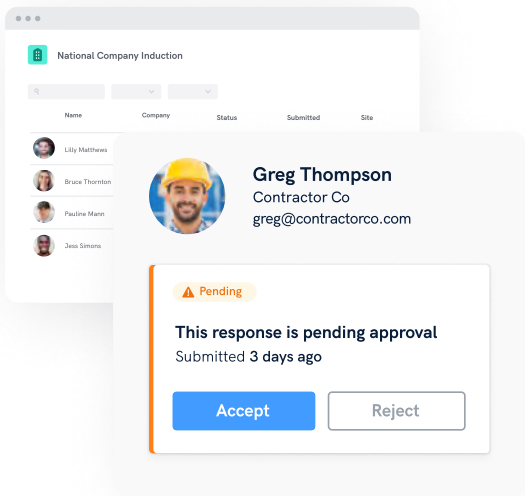

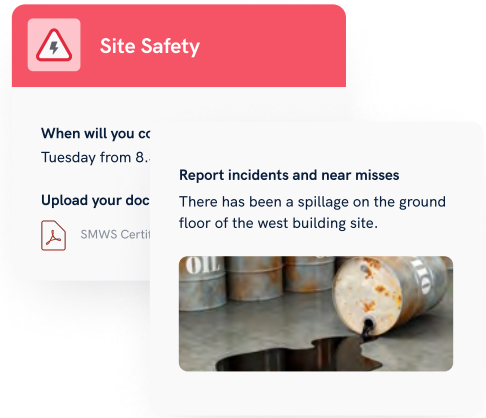

Prescreen visitors with COVID-19 questions

Use Sine Workflows to prescreen visitors before they check in by preregistering their details and sending them an email invite with a QR code to scan on arrival. Obtain key COVID-19 information by having your visitors complete and submit travel and vaccination details in their worklow.
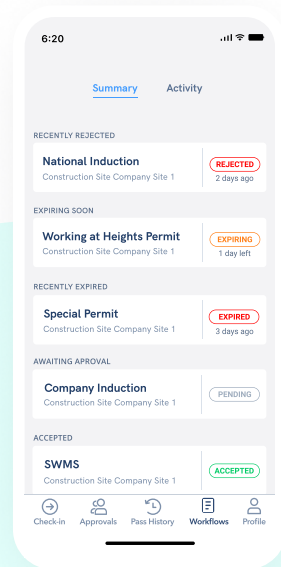

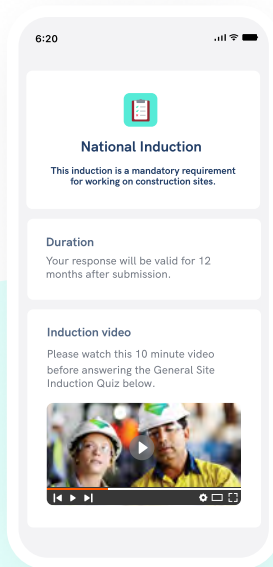

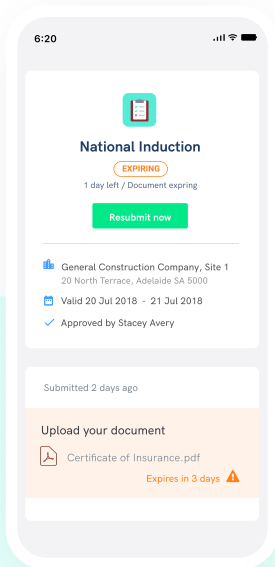

Manage safety with incident reports

Ensure only qualified people enter your site with the correct safety licences using the document upload. Have your contractors and staff report all details and upload photos regarding defects, incidents, and inspections via their mobile phone.
