# Powerful Contractor Management

Streamline compliance processes, boost employee productivity and build a culture of safety for your extended workforce

### Contractor Management

## Bring all your contractor processes together in one place

Take contractors from pre-screening to verified to working onsite in one place, in record time.

#### Streamline onboarding

Replace tedious manual processes and overhead costs with digital, mobile-friendly inductions

#### Gain compliance confidence

Collect, track and re-qualify mandatory forms digitally to ensure compliance at every stage of the contractor lifecycle

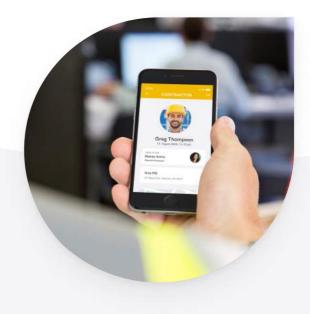

### Monitor activity across all your sites, from anywhere

Live web dashboard enables full workforce visibility and real-time decision making

#### Build a culture of safety

Mitigate risk with custom emergency notifications, evacuation lists and incident reporting

#### Case study

### Goodman

Using Sine across 180+ Sites, Goodman combines Sine Workflows and the Sine Pro mobile app to seamlessly check-in 15,000+ visitors and induct thousands of contractors per month.

"Sine has enabled us to have greater real-time visibility of our workforce so that we can better service our customers in Goodman properties. Implementing Sine was one of the smartest decisions we've made in property management."

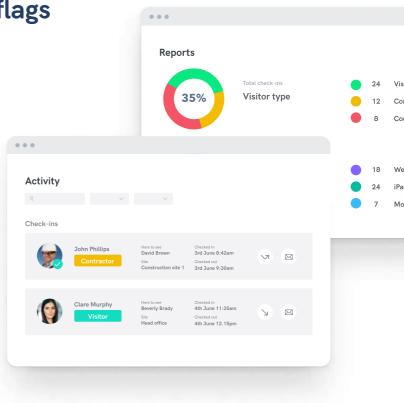

**Reymond K** Operations & Risk Manager, Goodman

#### Live web dashboard

### Track, report and spot red flags

- View all people activity and Workflow status across your entire portfolio
- Leverage auto daily reports for actionable insights and compliance confidence
- ✓ Make informed decisions in real time
- Export data in an instant
- ✓ Live API exchange to third-party systems

## Modernise with a Sine Tech Pack

Sine will provide all plug-and-play hardware, from iPads to kiosks, printers, and labels. We even supply 4G Sim cards and device management to keep your iPad completely up to date.

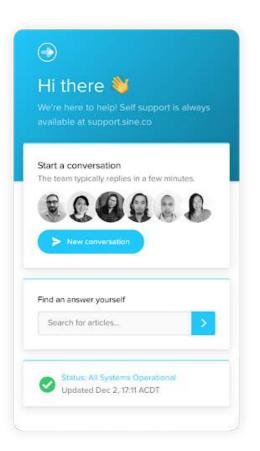

Every single starter pack is pre-configured and ready to go out of the box.

## Enterprise set up, training and deployment

Receive enterprise-grade setup, training, deployment, and support from day one with Sine. We listen to our clients and respond quickly. Safety is at the core of everything we do.

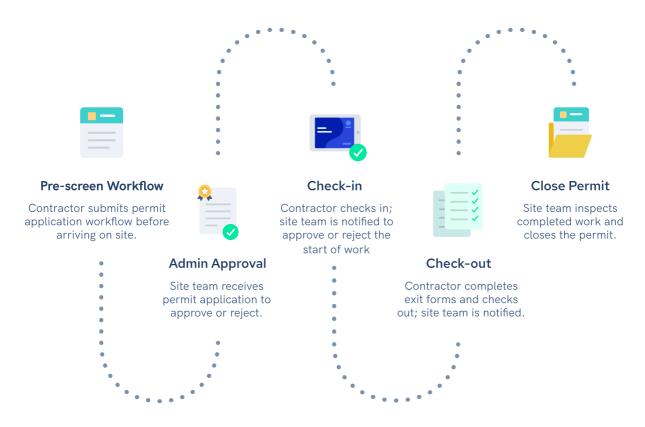

### Around-the-clock support – no matter where you are

- Phone, email and live chat available 24 hours a day
- Instant web dashboard and in-app support
- Issues resolved swiftly, within 24 hours
- L1 support elevates issues to the relevant site teams
- Contractors can also utilize support service in addition to teams
- Issues are addressed, action taken and communications provided to all relevant parties

### **Special Permits Workflow**

With Sine Core and Workflows working together, you can maintain powerful control over permits to work across one site or an entire portfolio of sites.

## Create a culture of safety across all sites

- Display all site induction forms as well as check-out forms to ensure all necessary activities have been completed and workplaces left in a safe condition
- Deliver live evacuation reports and emergency messages in real time
- Auto-generate reports delivery to client teams daily to report on lone workers working onsite outside business hours

We have a host of safety related features we can walk you through.

Mobile app

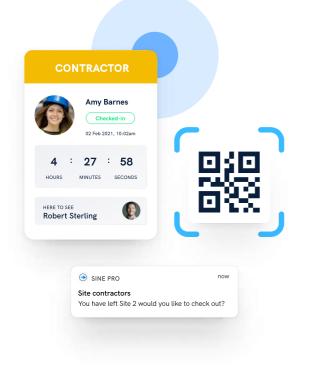

## Mobile-friendly, contactless access via Sine Pro

Our free mobile app uses cutting-edge geofencing technology to set up a virtual perimeter around your facility which enables repeat visitors and contractors to check in and out of your site seamlessly.

### Complete site access control – at your fingertips

Sine Pro's unique verification process adds an extra layer of security savviness to your operations to know who's on site and allows admins to monitor activity in real time.

Receive notifications when someone arrives and choose to instantly accept or reject visitors or contractors — ideal if you operate a remote site.

Upon exiting your site, users will be sent a notification reminding them to check out.

🚺 Workflows

### Inductions made easy

Sine can power all national and site inductions via the mobile web app.

Video inductions and questionnaires can be completed any time online via a weblink in advance of delivery.

## Quickly respond to submissions

Monitor a workflow and view by status type and site from the web dashboard. Track responses with pending approval, and dive deeper to see a respondents form answers and analyse document uploads. Accept or reject submissions with a custom message.

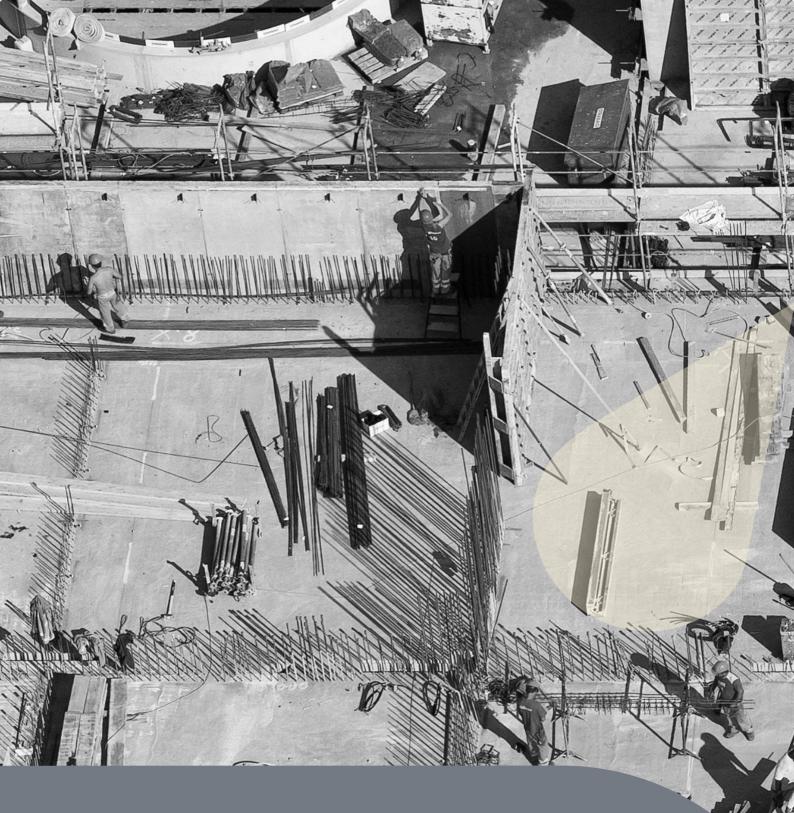

## Inspections and incident reporting

Sine can place QR codes on site and ask contractors to report and upload all details and photos regarding defects, incidents, and inspections via their mobile phone.

Ask your contractors to confirm if they have returned keys, file incident reports, complete checklists and view exit instructions related to your site.
